

PROCESS MANAGEMENT DRSM DIN EN ISO

STANDARD INTEGRATION

STANDARDS

... is exactly right if you are a company owner or management representative and want to integrate the requirements of DIN EN ISO standards for management systems into your management system, in order to always have the relevant standard requirements available for all processes.

Your advantage:

- The standard contents for integration into the management system are prepared in a detailed, electronic format.
- The prepared standard contents are incorporated into the available repository by DRSM as a service.
- DRSM will take care of the proper reproduction permission for the standard preparation for DIN
- By linking processes and standard requirements, every employee can see which standard requirements apply and must be fulfilled for which process.

The client must fulfil the following requirements:

- Proof of (purchase of) a valid standard license (Beuth Verlag)
- License to use DIN standards in in-house networks (Beuth Verlag)
- iGrafx® Origins software platform with Architecture Ext. and Business Modeler or

- iGrafx® Origins software platform and Business Architect (VCDA license model)

If you do not have these, we are happy to support you. We can also make iGrafx® components available in our DRSM lab (cloud).

The following prepared standard packages are available:

Standard	German	English
ISO 9001:2015	<input type="radio"/>	<input type="radio"/>
ISO 9100:2018	<input type="radio"/>	<input type="radio"/>
ISO 13485:2016	<input type="radio"/>	<input type="radio"/>
ISO 14001:2015	<input type="radio"/>	<input type="radio"/>
ISO 20000-1:2018		<input type="radio"/>
ISO 22000:2018	<input type="radio"/>	
ISO 27001:2015	<input type="radio"/>	<input type="radio"/>
ISO 45001:2018	<input type="radio"/>	<input type="radio"/>
ISO 50001:2018	<input type="radio"/>	

As a separate service, we prepare customer-specific audit catalogs structured around an object. A separate order is required for this. All legal requirements for these services must be produced by the client.

Solutions for a digital company organization and management intelligence.

PROCESS MANAGEMENT DRSM DIN EN ISO

STANDARD INTEGRATION

STANDARDS

For company owners or management representatives who want to integrate the requirements of DIN EN ISO standards for management systems into your management system, in order to always have the relevant standard requirements available.

Our service packages:

For organizations which already have iGrafx® Origins platform with Architecture Ext. and Business Modeler in use, we recommend **package 1**.

Content: Standard preparation (e.g. ISO 9001, ISO 14001 etc.) as iGrafx® - object “requirement”

Price: € 599 net per standard and language (please cross on the front page)

For organizations which do not have any object-oriented software in use, we recommend **package 2**.

This requires an expansion of the iGrafx® functionality regarding working with objects.

We would be happy to provide you with our quote.

Content: As package 1 plus the creation of the process landscape as iGrafx® - object “process” and induction on working with process objects

Price: As package 1 plus a one-off payment of € 1,990 net including travel costs within Germany

Version: 12.2021
